

## Description

Aspen Footer Editor is an ultra lightweight yet powerful plugin that allows you to easily edit your Divi and Extra website's footer information. With this plugin you can add custom footer text and change the color, size, hyperlink, and even add images & videos! The best part? All of this is done within a simple to use WYSIWYG editor just as if you were editing a post or page.

## Major Features

- Easy to install and access via the Divi or Extra dashboard tab or the plugins dashboard 'settings' link"
- Works with both Divi and Extra
- Easy editing capability within a standard WordPress WYSIWYG interface
- No setup required
- Lightweight
- Change the size, color, link, etc. of your footer copy
- Easily add photos, videos and more to your footer!
- No-trace uninstall: Should you ever decide to delete this plugin (no idea why you would want to) all of its associated data will be removed from the database.
- **\*\*\*NEW FEATURE\*\*\*** Easily implement dynamic dates such as 'current year, month, week, day and even time' using a simple dropdown short code selector

4. Activate the plugin in the Plugin dashboard

## FAQ

### **Are there any bugs with this plugin ?**

We have tested this plugin extensively and have found no known bugs or conflicts, but there is always the chance of unforeseen situations and potential bugs. If your website does happen to crash after installing this plugin, please follow WordPress' procedure on manually deleting a plugin here [https://codex.wordpress.org/Managing\\_Plugins](https://codex.wordpress.org/Managing_Plugins)

### **Will this plugin slow down my site?**

This plugin is well developed and extremely lightweight,. As with any plugin, this one has the potential to slow down your site, but we estimate the impact to be almost immeasurable.

What happens if I deactivate or uninstall this plugin?

Should you ever have the need to uninstall or deactivate this plugin, your footer credits will simply return to the default state set within your footer.php, "Designed by Elegant Themes | Powered by WordPress"

### **How many websites can I install this plugin on?**

Your initial purchase is good for unlimited installs. Once you have exhausted your maximum number of installs, additional credits can be purchased.
